Shreya Bingi

BSCIT - 2024

As a recent BSCIT graduate passionate about Full Stack Development and Data Engineering, I am actively building my expertise in both areas. With over 1.5 years of experience, I have designed, developed, and maintained various web projects. I have mastered time management by balancing college and work, and I am eager to apply my skills and contribute to innovative projects in these fields.

Work Experience

TING LLP Works , INTERN June - August 2022

- During my 3-month internship, I gained valuable insights into real-world website development practices and learned about website management processes.

**TING LLP Works ,
JUNIOR DEVELOPER** September 2022 - June 2024

- As a Junior Developer with a year of experience at TING, I have progressively developed my skills in React, WordPress customization, and Shopify.
- Additionally, I am now integrating Next.js into our workflow to further diversify my development capabilities.
- I have crafted custom code pages, collaborated on diverse projects, and enhanced my expertise through extensive Shopify training.

Achievements

- 2nd Prize in Web Designing
- Female Player Of the Match (CRICKET)

Additional Information

- Cycling
- Gardening
- Volunteering in Yoga

Projects

- Developed a simple personal portfolio page using React as a self-practice project to showcase my skills and projects.
- In my final year project, I developed a recipe generator using JavaScript, API integration, and PHP for the backend. I also added a grocery shopping feature to enhance user experience and functionality.
- During my college days, I undertook the creation of a small electronics booking site, employing ASP.NET for the frontend and managing the database operations.
